

Last year in autumn I was in Sweden with school bus. On the 3<sup>rd</sup> of November we went by bus to Tallinn. We drove about 7 hours. On the bus we watched films, listened to music. Then we came to Tallinn, we walked around the old town. Also we were in an old church.

In the evening got on the ship. Luckily we don't meet any storms. On the ship there was a disco, shops, café, restaurants. Initially it was strange feeling in the head but later we got used to it. Later that evening we watched a special program.

In the morning we ate breakfast, and picked up the necessary things. We are in Sweden! We got off the ship. All day we walked in Stockholm. We were in popular "Vasa" Museum. In "Vasa" museum there is one thing - big ship. It has been in the sea about 300 years. Funny is that it sailed only 300 meters.

In the evening we got back to our ship. Next morning we picked up all things, and got off ship. We get back to the bus. After a long trip we went to Munchausen Museum.

Late in the evening we came back to Lithuania, tired, happy and full of beautiful memories. Have you ever been to Sweden?
