

Hi there, are you feeling tired? Want some money worth rest?

Well then, my friend, you should go to

DRUSKININKAI

Druskininkai is a town in south Lithuania.

It's a small town of health. There is a lot of water full of salt and minerals.

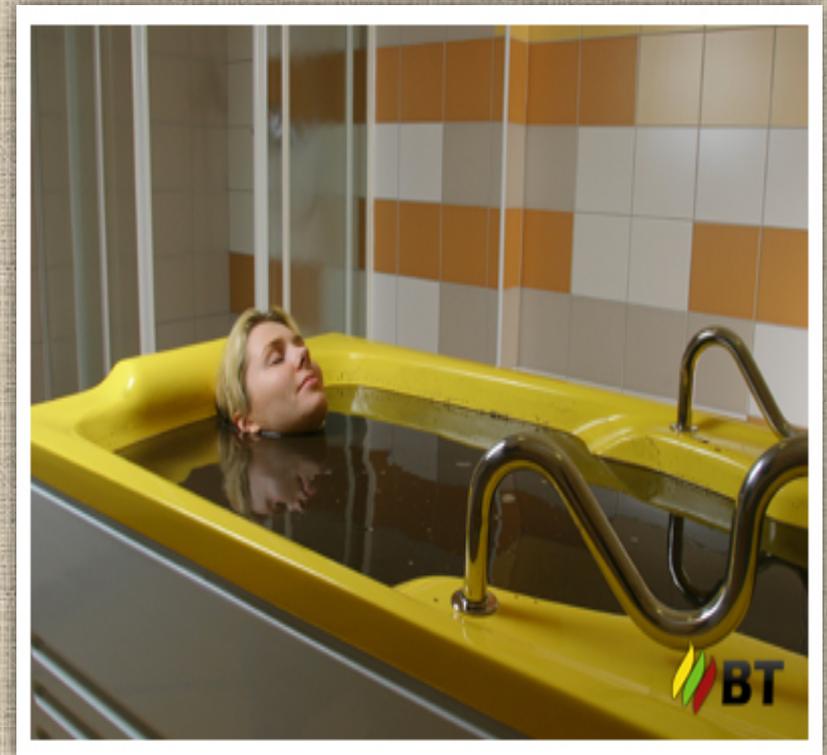

In Druskininkai you can check into some Hotels. They have gyms which are very useful for exercising and staying healthy.

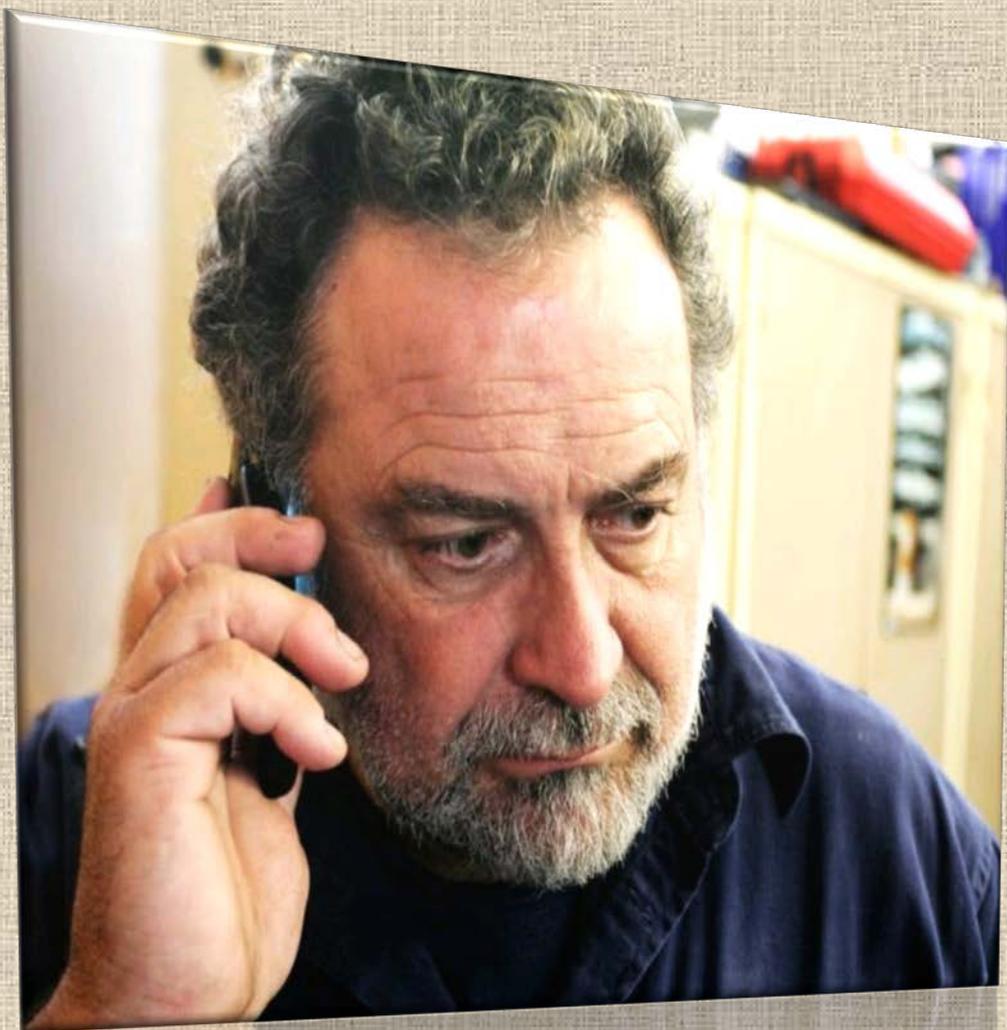

They also have saunas and swimming pools. Pools are very good for your health too.

And the best thing in the hotels are spas. In there, you can relax while getting a nice massage or read some fashion magazines while having a mud bath...

If you get hungry, you can go to the centre of the town. It has a lot of restaurants and cafes.

But if you're too  
lazy, you can  
always call the  
hotel service and  
order food.

And the people who live or work  
in Druskininkai are surprisingly  
friendly and helpful.

So why don't you pack your bags and  
come? Because Druskininkai will be  
waiting for you! ☺
