Some information about cats

Cats are really cute sometimes funny animals. Some people think that the cats don't think but they truly do. Some male cats are born with 3 different fur colors. They could be brown, light brown or very ginger. There are a variety of kinds of cats. But now I'll talk about the high cost cats.

First one is link point siamese cats

They cost about 1000 \$. They have 3 colored fur. They come in cappuccino, white and gray colors, fur is soft like silk, they have stripes on their back, feet, stomach and head. Their eyes are deep blue color. They are truly amazing and unique too.

Second is the ashera

These cats are actually Savannah cats. They look like tigers only smaller. They have light brown eyes. When they are born, they are really long. They cost about 125,000\$

Third is the Bengal

They are not so rare. They came to this world in 1998. They have light green eyes, brown fur with dark brown and black stripes and dots. These cats cost about 4000\$

Four is the Sphynx

It is light colored and it doesn't have much fur. The eyes are green. And it has some wrinkles on its legs. The cat came from Canada. It costs about 3,000\$:o

And the last one is the Peterbald

It is like the Sphinx breed mostly. They came from Russia. The cat has gray colored fur and its eyes are dark green. Its ears are long. And it has some wrinkles on its back. It costs about 3,000\$

Comment which is your favorite cat!
