

PROBLEM – SOLUTION ESSAY by Eminas 7A

My town is a great place to live, but there are a few problems here too. Firstly we don't have normal football stadium. Secondly taxes are a little bit a big. And thirdly, the air quality in the city is not good.

If I were mayor, I would build a football stadium for our national football teams. To reduce their taxes people would need to do good things for our city. To reduce air pollution, I would encourage people to cycle or walk to work or school by banning people from driving cars in

the city center.

In my opinion, these changes would make a big difference to life in my town. But if I had to do only one thing I'd ban cars from town center because air pollution affects everybody's health.
