

# Time capsule

Our names are Greta and Karina, we live in Lithuania, Vilnius. The year is 2020 and we're burying this capsule because we want to inform you of what happened in the year of 2020.

We are including a photo of our current president Gitanas Nauseda, because he is the president of our country currently. An IQOS vape because most of our population own a vape and use it, including children and teens. Some duct tape because we don't think it will be available after some years. A *TikTok* app downloading link that you can open on your devices because it gave us all cancer. A photo of our beloved minister of health Mister A. Veryga, because he ruined our lives by cutting off huge amounts of sugar from our school food. A photo of the 8c class from VJBP students, because we are there, Karina and Greta 😊

The world today faces the problem of Corona virus, climate change, increased population of not so clever people that ruin our planet, or don't they? 8-D

The capsule should be opened in the year 3020.
