INTRO

- Hello, fellow humans! Or maybe robots? We're just two normal teenagers writing this for the time capsule, that's going to be opened in 2050. We're writing in the year of 2020, from Vilnius, Lithuania.

CULTURE

- Us Lithuanians aren't that well known around the world. At least we have the biggest suicide rate! Ha, ha...
- Our new president Gitanas Nausėda is pretty cool, he's just trying to improve our country.

TECHNOLOGY

- We're giving these things for you, that we thought would be interesting:
 - **Pictures** (of nature, humans, animals).
 - **Toys** (card games, monopoly, uno cards).
 - **A phone** (iphone 11 pro max – latest/newest iphone).
 - **Money** (cents and paper money).
 - **Clothes** (what's trendy right now).

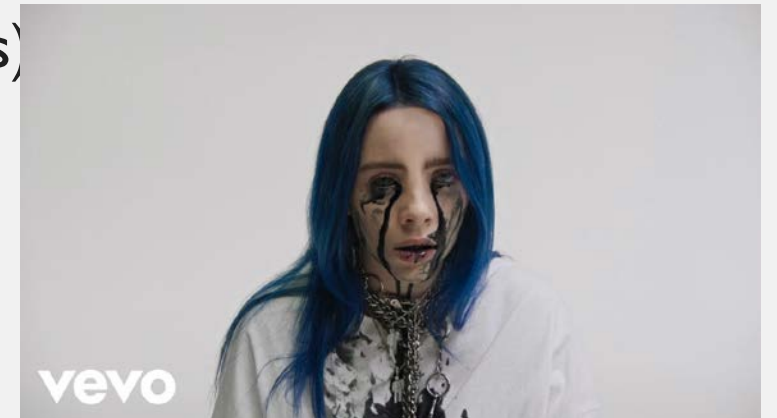

WORLD PROBLEMS

- The world today faces the problem of **pollution, climate change** and the **Coronavirus**.
- These things are scary to think about, but not a lot of people care about it. Once it will get worse, others will start to panic. How is it going to be for you?

THE MOST POPULAR PEOPLE

- The most popular people, in our opinion, right now are:
- **Donald Trump** (USA President),
- **The Hype House** (popular random tik tokers)
- **Ariana Grande and Billie Eilish** (singers),
- **The Kardashians** (rich people),
- And others... Do you remember them?

THANK YOU FOR YOUR ATTENTION 😊
