

Problem – Solution Essay by Amelija 7D

I live in a village. In my opinion, village is a great place to live, but there are a few problems here too.

Firstly, there are quite a lot of homeless animals in the village. Secondly, there are no lights on the street. It's not very comfortable when, it's late and it is dark

outside. And thirdly, there are no bus stops, and the buses don't go to the village very often. And that's very uncomfortable because, it's a really long distance from the closest bus stop to the village.

If I were a mayor, I would build special hotels for animals, because I really like animals. For convenience, I would install the lights on the streets. And I would make roads better, because the roads

in my village are uneven, and that's not comfortable at all, because people face traffic jams all the time.

In my opinion, this would make a big difference to everyday life in my village. But If I could only do the

one thing, I would ban loud music in the village, and make more peaceful spaces for recreation.
