K-pop concerts

- Are you interested in music? If yes then I totally recommend to try and listen to K-pop! (Korean pop music). If you like it you can go to an amazing concert there! There are lots of K-pop groups and singers, so you have a bunch from to pick! Korean bands and singers not only sing, but also perform amazing choreography.
- Girl group – Blackpink, boy group - BTS

Dongdaemun Design Plaza

- Visit and see Dongdaemun Design Plaza. An interesting building designed by Zaha Hadid and Samoo. Take some pictures and post them on social media!

Clothing stores

- If you like fashion and clothes then don't miss going shopping for clothes in Seoul. There are a lot of stores and if you like K-pop then you can even dress up similar to your idol. Clothes are of really good quality. For example you can go to ALLSAINTS and find stuff from the latest collection.
